## For You to Read

"What puzzled me in the beginning was that I kept losing flesh without any cause for it that I could see. I had a little trouble with my stomach, too, and after a while began to grow weaker and to cough. The cough, I thought, would soon go away and cure itself, but it didn't. It grew worse, and then I began to spit up a peculiar looking substance. I never thought of consumption, but one day I had a hemorrhage, and then was frightened in earnest and did just what you would do. I rushed to the doctor. He was either too busy, or something else, for he didn't do me any good. I kept going on down hill, and the outlook was bad. Things took a different turn, however, when I heard of Acker's English Remedy for Consumption, for I took it, and it not only cured my coughing and spitting, but also built up my whole system. I took on permanent flesh, and today am just as healthy a man as you can find in a week's travel. You may be sure I always keep Acker's English Remedy in the house, and it is a good thing I do so, for one night my youngest child was seized with croup. That hoarse, wheezy cough was the first signal, and I lost no time in giving the poor little sufferer proper doses of this grand medicine. In almost no time the disease was under control, and my child was saved. I advise every parent to have a bottle handy all the time. It serves the same purpose in keeping croup out of the house that a good lock and key serve to keep burglars out. It is both an expectorant and a tonic. It cured me of consumption and my child of croup, and I know what I am talking about." (Signed) Hon. M. Hogan, picture frame manufacturer, 242 Center Street, New York.

We have received many letters inquiring about the price of land, of town lots on the water front and "in the business part of the town," about the climate, etc.

We refer all inquirers as to the prices of land in the immediate neighborhood of this port, and also in regard to city lots, to Col. A K Owen, Baldwinville, New York City, N. Y.

As yet the population of Topolobampo, set down as about five hundred, consists chiefly of railroad workmen and their families, who live in shacks constructed of railroad ties, poles, brush and mats. Besides these there are the Custom-house, officials, a few merchants and the few Americans in charge of the railroad work. There are six framed lumber and four stone buildings here, including the Custom-house, all the latter and one of the former, having been built by the colonists many years ago.

There is no organized town here at present, only a railroad camp; but as a great city is projected, and the place has wonderful natural advantages and undeveloped resources, there is no doubt that in near future it will become one of the most important sea-port towns on the Pacific coast.

Though during the last sixteen years we have not known the thermometer to register above 98 degrees (Fahr.) in the shade, it is quite hot during the summer months, but an almost constant sea-breeze tempers the heat so that in the shade one can be comfortable during the hottest day. Our winter season is as nearly perfect as it can well be. Topolobampo Gazetere.

A metropolitan production which combines all the effects of stage-art is to be produced in Nogales. Special scenery is here and ready to be put in place. Special pictorial paper has arrived and will be displayed in a short time. Every thing is being done to make "Faust" the event of the season. March 5th, has been set for the date of the performance and in our next issued the complete program will be given. Ezra Norris is directing the production and will give his interpretation of Mephisto, with picked and carefully instructed local talent as support.

Mr. Hubinger and Mr. Wetmore will leave for their home in New Haven on tonight's train. W E Defty of Phoenix is general manager of the company and John Henderson of Nogales is superintendent.
